¹ This product is made of a valuable material. Please recycle where possible.

The aluminium foil contains a food approved lubricate, the amount is depending on the shape and complexity of the container.

² The number of packagings may vary, but the number is equalized by the total order.

³ Be aware that containers with outside lacquer can have limitations on the specified temperature. Lacquer is specified to app. 200°C, but time and other conditions may affect heat resistance, therefore it must be tested at the customer.

* The recycled content in % is the secondary production aluminium part. This is a calculated average based on raw material supplier data for the last 2 calendar years. It can be subject to changes based on changes from our supplier.
